

TIME

Notice that the Individual is situated between "Time" - a steady-state advancing of the chronological clock - a straight line.

Human History

"progresses" through the dialectical interaction between "Ideas".....

IDEALISM

NATURAL HISTORY

MATERIALISM

This represents the cultural and natural knowledge bank that our "individual" was born into - their "Natural History"

.....as they collide with the real, "material" world

between "Time, and a "Natural Environment" which is always in flux - minimally we have seasonal variations year-over-year, but also possibility of dramatic changes like Ice Ages, or Global Warming, or a meteor striking the Planet

NATURAL ENVIRONMENT

Social/Cultural Evolution (in the Larmarkian sense)

Biological/Genetic Evolution (in the Darwinian sense)
